

## **Anti PTH (1-34)-NH<sub>2</sub> (Rat) Serum**

Cat. No. Y420 Lot No. 244100513

**Description:** This antiserum was raised in a rabbit by immunization with a carrier free synthetic PTH (1-34)-NH<sub>2</sub> (rat) peptide. The product vial contains 50 μL of the titled antiserum obtained by lyophilizing its 0.001M phosphate buffer (pH 7.0, 0.5mL) solution. It can be used for immunoassay, immunohistochemistry or other immunoreactions with PTH (rat).

**Immunogen:** Synthetic PTH (1-34)-NH<sub>2</sub> (rat), carrier free

**Host:** Rabbit

**Amino Acid Sequence of PTH (1-34)-NH<sub>2</sub> (Rat)<sup>1)</sup>:**

1 34  
AVSEIQLMHN LGKHLASVER MQWLRKKLQD VHNH-NH<sub>2</sub>

**Product Form:** Lyophilized unpurified serum

**Size:** 50 μL

**Reconstitution:** Reconstitute the product with 0.5mL of 0.01M PBS (pH 7.0) to make a 10 fold diluted stock solution. If it is stored in a refrigerator, add moderate antiseptic to the solution (e.g. NaN<sub>3</sub> 0.1%).

**Storage:** The product will be stable for over one year if it be stored at -20°C to -80°C until opened. Upon reconstitution, the antiserum solution must be stored at 2°C to 8°C and used within one month. Repeated freezing-thawing should be avoided.

**Suggested Working Dilution Range:** 1:3,000 (final dilution ~1:21,000) for radioimmunoassay; 1:1,000-4,000 for immunohistochemistry (frozen or paraffin sections). Optimal dilution should be determined by each laboratory for each application.

**Specificity** (based on ELISA): PTH (1-34)-NH<sub>2</sub> (rat) 100%, PTH (1-34)-NH<sub>2</sub> (human) 1%, PTHrP (1-34)-NH<sub>2</sub> (human) 0%

**Positive Control** (immunohistochemistry): Rat parathyroid gland

**Species Tested:** Rat
